

Customer Case Study - Revital

Revital's Chief Executive Officer, Rahil Vora, shares how Revital are growing as a business with the support of Datascan Retail Systems by their side for all of their IT needs and operations.

Tell us a little about Revital?

Revital is one of the UK's largest independent vitamins, supplements and healthy food retailers.

Revital has been a client of Datascan Retail Systems for several years now, what services and support do they offer you? What makes you stay with them rather than going elsewhere?

Datascan offers us great support, they are very flexible and friendly. We are also extremely grateful for their supportive management that helped us get through the COVID crisis. It was crucial to our continuation of growth and stability in the Retail Industry.

Please rate the service that Datascan provides to your company.

Would you recommend Datascan to other businesses?

What are Revital's plans for the future?

Our future goal is to continue to open more Revital Stores and then eventually move to a fully cloud based system.
